Service launch date

**Monday 5th November
2018**

Working together

What is the Out of Hours Service ?

The aim of the service is:

To provide an essential social work service outside of normal office hours on behalf of Bournemouth Borough Council and Borough of Poole Council Children's Services.

The objectives of the service are:

- To respond to **emergencies** where immediate Children's Social Care intervention is required to safeguard a vulnerable child.
- To respond to all referrals that the Local Authorities have a statutory obligation to respond to.

The purpose of the service is:

To offer a single point of access whereby all referrals/calls will be screened and signposted or advice and information offered. If a call meets the required statutory criteria it will be passed to a Social Worker for action outside of normal daytime Children's Social Care hours.

Are there situations the Out of Hours Service cannot assist with ?

- Due to the statutory remit, and working within the limits of available resources, the Out of Hours Service cannot seek to duplicate that offered by daytime Children's Social Care Departments.
- Work is limited to crises that arise outside of normal office hours and priority will be given to those situations seen to be most at risk and in need.
- In general terms, priority will be given to child **safeguarding** situations and particularly those where a child protection response is required.

When should you call the Out of Hours Service and what is an emergency ?

You should call only if a child or young person is at serious risk of significant harm, and the situation cannot wait until 9.00am the next working day.

For all other emergencies involving a child please call the relevant emergency services via 999 or 101

How will your enquiry be dealt with ?

The Out of Hours Triage Service will be the first point of contact and they will determine if:

- There are valid reasons why the request cannot await a response until the next working day.
- After the initial screening process, whether the referrer should be signposted or transferred to a Social Worker.
- The situation requires urgent action. The service response will then be determined by priority according to the perceived vulnerability of the child or young person requiring the involvement of the Out of Hours Service.

If transferred to a Social Worker calls will be immediately assessed for priority against other demands being made at that time and dependent on the needs and risk posed to the child.
